CHARLES D. BAKER  
Governor

KARYN E. POLITO  
Lt. Governor

MATTHEW A. BEATON  
Secretary

JOHN LEBEAUX  
Commissioner

### Notice

Pursuant to the provisions of the Rights-of-Way Management Regulations, 333 CMR 11.00, to apply herbicides to control vegetation along rights-of-way, a five year Vegetation Management Plan (VMP) and a Yearly Operational Plan (YOP) must be approved by the Department of Agricultural Resources (DAR). National Grid has submitted and holds a current VMP, therefore, notice of receipt of a YOP and procedures for public review is hereby given as required by Section 11.06 (3).

National Grid has submitted a YOP to DAR for 2017 and National Grid's YOP identifies the following municipalities as locations where they intend to use herbicides to treat their electric Rights-of-Way in 2017:

2017 Municipalities			
Adams	East Brookfield	North Attleboro	Spencer
Attleboro	Fall River	North Brookfield	Sterling
Auburn	Grafton	Northbridge	Sunderland
Ayer	Groton	Norton	Sutton
Belchertown	Hanson	Oxford	Swansea
Beverly	Harvard	Paxton	Tewksbury
Billerica	Haverhill	Pelham	Uxbridge
Bolton	Hingham	Pepperell	Ware
Boylston	Holbrook	Plainville	Webster
Braintree	Lancaster	Randolph	Wendell
Buckland	Lanesborough	Rehoboth	West Boylston
Charlton	Leicester	Rutland	West Brookfield
Chelmsford	Leominster	Seekonk	Westborough
Cheshire	Leverett	Shelburne	Westminster
Clinton	Lowell	Shirley	Westport
Conway	Mansfield	Shrewsbury	Weymouth
Deerfield	Marlborough	Shutesbury	Winchendon
Dighton	Millbury	Somerset	Worcester
Dudley	Millville	Southborough	Wrentham
Dunstable	North Adams	Southbridge	

In 2017 National Grid will conduct a selective herbicide treatment program on their rights-of-way as part of an Integrated Vegetation Management (IVM) program on transmission and distribution lines.

The intended vegetation control programs will be consistent with the guidelines set forth in National Grid's VMP and YOP. Herbicides will be selectively applied to target vegetation by licensed/certified applicators carrying backpack or hand held application equipment.

National Grid will only use herbicides recommended by DAR for use in sensitive areas for their IVM program. Pursuant to 333 CMR 11.04, no herbicides will be sprayed within any designated "no spray sensitive sites." Instead, mechanical only methods will be used to control vegetation in these areas.

Public notification will be provided to each "affected" municipality at least twenty-one days prior to any herbicide application and in a newspaper notification at least 48 hours before the beginning of the spray season.

In accordance with 333 CMR 11.06 (2), National Grid's YOP includes the identification of target vegetation; methods of identifying, marking and protecting sensitive areas; application techniques; the herbicides, application rates, carriers and adjuvants proposed for use; alternative control measures, a list of the application companies and YOP supervisor; procedures for handling, mixing and loading herbicides; emergency resources including local, state and federal emergency telephone numbers; maps of the rights-of-way that include mapped sensitive areas, and herbicide fact sheets and labels.

## PUBLIC REVIEW

The DAR seeks to verify the location of sensitive areas defined in Section 11.02 and reported in the YOP. DAR itself has a limited ability to survey the geography, land use and water supplies in all the communities through which rights-of-way pass. Municipalities have most of this information readily available, and the particular knowledge with which to better certify the sensitive areas in their communities. DAR, therefore, requests, and urges the assistance of the "affected" municipalities in reviewing the completeness and accuracy of the maps contained in the submitted YOP.

The YOP can be view on the DAR website at: <http://www.mass.gov/eea/agencies/agr/pesticides/vegetation-management-and-yearly-operation-plans.html> or on the National Grid website at: [https://www9.nationalgridus.com/transmission/c3-8\\_standocs.asp](https://www9.nationalgridus.com/transmission/c3-8_standocs.asp)

DAR has established the following procedures for this review:

Copies of the YOP and this *Notice* will be sent by the applicant to the Conservation Commission, Board of Health (or designated health agent), the Head of Government (Mayor, City Manager, Chair of the Board of Selectman) and appropriate water suppliers of each municipality where herbicides are to be applied during the calendar year of 2016; and if applicable, to the Natural Heritage Endangered Species Program of the Massachusetts Department of Fisheries and Wildlife, the Massachusetts Water Resource Authority and the Massachusetts Department of Conservation and Recreation. Municipal agencies and officials will have forty-five days, following receipt of the YOP, to review its map for inaccuracies and omissions in the location of "sensitive areas not readily identifiable in the field."

Municipal agencies and officials are requested to forward the YOP to the appropriate official(s) in their municipality who are qualified to certify the accuracy of the sensitive areas indicated on the maps. The maps should then be "corrected" and returned to the applicant and a copy should be sent to DAR, at the address listed below, within the forty-five day review period.

If a city or town needs more time to carry out this review, it should send a written request for an extension to DAR and cite why there is a "good cause" for requesting additional time.

The applicant is required to make all corrections and the corrected maps will be sent back to the city/town that requested the disputed changes within fifteen days of receipt of the request. DAR will decide whether or not the YOP should be approved without the requested changes. DAR will consider the "final approval" of a YOP individually for each municipality.

The twenty-one day public review period of the Municipal Notification Letter may serve concurrently with the forty-five day YOP review period in order to provide public notifications as required by 333 CMR 11.06-7, if the applicant has an approved VMP and if all the requisite city-town offices that received copies of the YOP completed their review and all corrections were duly made by the applicant and approved by DAR.

A failure by the city/town to respond to the applicant's submission of the YOP within the forty-five day period will automatically be considered by DAR to indicate agreement by the municipal officials with the sensitive area demarcations provided by the applicant in their YOP.

Any questions or comments on the information provided in this *Notice* and the procedures established for the municipal review outlined above should be addressed to:

Clayton Edwards  
Director of Rights-of-Way Programs  
Massachusetts State Pesticide Bureau  
251 Causeway Street, Suite 500  
Boston, MA 02114-2151

Any questions or comments regarding the YOP should be addressed to:

Mariclaire Rigby  
Lead Vegetation Strategy Specialist  
National Grid Vegetation Management  
Strategy  
939 Southbridge Street  
Worcester, MA 01610

**COMMENT PERIOD ENDS AT THE CLOSE OF BUSINESS ON January 23, 2017**
